Tilly's Crawler Parts is a proud supplier of quality new alternative parts and attachments for earthmoving machinery. Based in Toowoomba, Southeast Queensland, Tilly's ships products across Australia and around the world.

Tilly's is a proud stockist of the range of Bedrock Attachments. With a reputation as one of the world's largest construction machinery attachment manufacturers, Bedrock provides an ever-expanding range of cost-effective alternatives, driven by quality and built to last.

Bedrock Attachments currently in stock at Tilly's Toowoomba HQ include ripper groups, scrub canopies, front blades, sweeps and stick rakes. Wheel loader forks and variations of quick hitch and thumbs suitable for a range of excavators round out the range.

Attachments are suitable for a range of machines from Caterpillar, Komatsu, Hitachi, John Deere, Volvo and Case, and if it's not already in stock at Tilly's, most products are available to order.

Customers purchasing machines from Tilly's inventory of near-new, low to mid-hour machines can make their selection of complementary attachments and have them fitted by the experienced team in the Tilly's onsite workshop prior to delivery.

Add to this the extensive range of over 40,000 new alternative part-lines in stock, and Tilly's customers are guaranteed quality, long-term solutions for their machinery maintenance and repairs.

Tilly's team of 14 highly experienced Parts Interpreters do just that – take the information provided and translate it into the perfect solution. Understanding the specific requirements of their Australia-wide customer-base and providing fast, efficient service and turn-around times is what Tilly's has prided itself on for nearly 40 years. The Right Part, Right Price, Right Now guarantee is fiercely upheld by the entire team, from the sales team to the workshop floor and everywhere in between.

Committed to keeping you on track, Team Tilly's welcomes enquiries about their range of machinery, attachments and new parts.

Tilly's make doing business easier with a \$3000 inc GST credit account for new customers. Become a Tilly's account holder today.

Simple. Quick. Convenient.

What our Customers Say

SB GRADER HIRE runs a fleet of 6 CAT 150M graders and we utilise Bedrock front dozer blades on 5 of these tractors. We find they are nearly half the price of other products but give the same results and haven't had one fail. Tilly's always gives us the best deal and the service is great !!

Stephen Banks
SB Grader Hire, NSW

"We purchased a Bedrock Quad Ripper and Foldable Stickrake for our D6R tractor, easy to fit, well-built and continues to give us a great run. They are great value for money and continue to be straight and true."

B Stallman
Stallcher Earthmoving, QLD

"We purchased two Bedrock Stickrakes from Tilly's and use them on our D5G dozer. We've been extremely happy with the quality of the attachments and the service from Peter. Thanks."

A Burrows Contracting, Tasmania
